Samples of acceptable registry *Primary Source Verification*:

Primary source verifications can be completed no more than 30 days before completing the licensing application.

The recent verification from your registry website(s) can be completed and the documentation saved to your computer and then uploaded when instructed while completing the application.

Or you may take a screenshot of the registry primary source verification page, but it must be taken within 30 days of the submission of your application, and none of the pertinent information should be missing or clipped from the image, such as name of registry, current dates of valid through and if any actions or sanctions by the national registry.

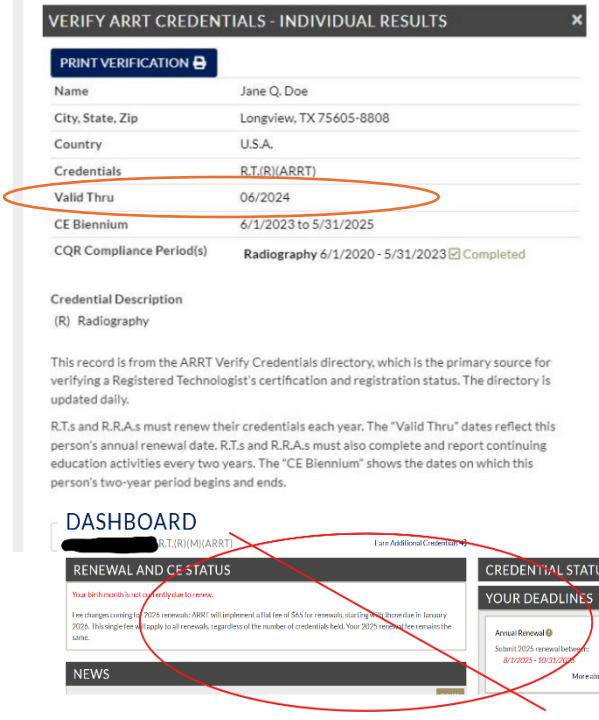
Below are a few examples to assist:

ARRT:

*Please do not send a screenshot of your ARRT dashboard account screen or payment of the ARRT registry.

*Acceptable documents directly from **ARRT** website:*

The Search Online Directory information looks like this:



The verification on letterhead looks like this.

ARRT dashboard sample that is NOT an acceptable form of Primary Source Verification: *as it does NOT provide current information regarding if current disciplinary actions, sanctions or restrictions.*

ARDMS: Verification:

*Acceptable document directly from **ARDMS** website:*

ARDMS®
